

This application mail has been sent To whomsoever it may concern, with regards to obtain information in my case being a one eyed person i.e. with monocular vision. If this mail doesnt concerned to you please forward this mail to respective departmental email and cc to me. Thanks in advance

Repected Sir,

My name is Praveen Kumar Jain S/O Sh KAnhaiya Lal Jain (Bhoora) aged 30 years, resi of New Line Gangashahar , Bikaner-334401. I am having only one eye since birth and doesn't have right eye. I am being habitual of seeing this world with my one eye since childhood. And I understand that there is no problem to me at all. I have done my higher studies with good track records having sight only one eye , I am a qualified Company secretary (CS) and also have passed the 1st group of CA final examination of Instt of Chartered accountants of India and right eye lost never being a trouble for me in any manner.

I have good vision enough in my left eye and clearly see all around with some less powered spect. I can easily drive two wheeler without any problem and as you know that driving is also become a necessity in today's busy life. I want to apply my Driving License for Four Wheeler (LMV non transport/ non commercial) only for my personal use. I have just completed my driving course from a private driving school.

I consider myself as a normal person and want you to consider me the same as normal person too. I assure you that there is no danger to public and I will take care public interest by all means.

Sir, I recently made an application to RTO Office Bikaner by application no. 832811317 dt 11.09.2017 and visited to RTO office for further processing. But they denied to process it further on medical grounds and asked me to get a medical fitness certificate from government hospital stating that I am able to drive with one eye and there is no harm to public. Sir, as you know that no doctor will take guarantee of any person like this. He can only test my eye/s and certify about my vision in left eye only.

Earlier , every time in past years I applied for license, always I was denied that driving license can not be issued to one eyed person.

But , sir I know that I have same rights what a normal person have and I am in hope of justice from your side.

So, sir , I would like you to go through the facts presented by me and help me to live a life like a normal person. Also please guide me how to proceed further , and issue directions to RTO Bikaner in issuing me driving license for LMV (non transport/ non commercial)

Thanking you.
Praveen Kumar Jain
